Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' response dated 10/16/2006 has been received and entered. Claims 16-23 and 33-44 are remain pending in the application. Claims 1-15 and 24-32 stand withdrawn from consideration.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 44 is rejected under 35 U.S.C. 102(b) as being anticipated by Tsubota et al., US Patent No. 5,677,749.

Claim 44 is anticipated by Tsubota et al. figures 32-33 and accompanying text which discloses a method of manufacturing a liquid crystal display panel (figure 32) comprising the steps of affixing a pair of substrates (306/307) to each other, disposing a thermosetting seal material (308), disposing a thermally conductive buffer plate (325) and heating/curing the thermosetting seal material while selectively applying a pressure (load) from outer surface of the display panel (figure 32) where the thermosetting seal material is disposed through the buffer plates due to grooves (325a).

Allowable Subject Matter

3. Claims 16-23 and 33-43 are allowed.

Art Unit: 2871

4. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record discloses or suggests alone or in combination that a method of manufacturing a liquid crystal display panel comprising a combination of various steps as claimed more specifically the step of heating and curing the thermosetting seal material while selectively applying a pressure from the outer surface of the display panel body to the region where the thermosetting seal material is disposed through said buffer plates, without pressing the display regions of the display panel body which overlap the openings formed in the buffer plates, in the portions of the buffer plates corresponding to the openings as set forth in claims 16, 34, 42 and 43.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
